# Why Expand to Slovakia?

Slovakia is one of the fastest developing economies in Central and Eastern Europe (CEE). After joining the European Union in 2004, the economic reforms were conducted by the government and the foreign direct investments flowed to the country. As a result, Slovakia has experienced rapid economic growth and a falling rate of unemployment in the 2000s. Slovakia is one of the most open economies in the EU, and the government's overall attitude toward foreign direct investment (FDI) is positive, not limiting or discriminating against foreign investors. Germany is Slovakia's largest trading partner.

Slovakia one of the best conditions for doing business in the CEE region and CEE leader in labor productivity and in the top 10 hardworking countries (OECD).

**Most of the FDI originates from the following countries:** Germany, The Netherlands, Austria, Czechia, Luxemburg.

**Successful investors:** BASF, Henkel, Volkswagen, Siemens, Hewlett-Packard, Cisco, IBM, Dell, AT&T, Accenture, Amazon.

## **Incentives for foreign investors:**

- Tax relief
- Financial grants
- New jobs cash grants
- Training cash grants

## **The purpose of the investment aid is to help the investor with the:**

- purchase of land and buildings acquisition
- rent of new land and buildings
- purchase of new technology and machinery equipment
- purchase of intangible assets – patents, licenses, know-how, etc. or
- wage costs of new employees for the period of 2 years

## **The Investment aid in Slovakia can be granted for these types of projects:**

- industrial production
- technology centers
- the combined project of industrial production and technology center
- shared services centers

Sincerely,

Yalin Yuregil  
Founder & Director
